Enforcement Confidential- Deliberative

We have scheduled a briefing for 10 AM March 31st to review the current status of the DuPont Emergency Order under SDWA. At this point the team members from Regions 3, 5, OECA, OW and OGC have reviewed the Order and would like to get management agreement to initiate discussions with DuPont. Region 5 managers have also reviewed and have not requested changes in the document. Senior managers at OECA were also scheduled to be briefed this week.

There are several issues to be negotiated prior to any final PFOA Health Advisory and the team would like to move forward, so these issues can be finalized before a value is determined by OW. **Ex. 7(A), 5 (Deliberative)**

Ex. 7(A), 5 (Deliberative)

The changes proposed in the attached 2016 Order, from the existing 2009 Emergency order, which is still effect, include:
